

115TH CONGRESS  
1ST SESSION

# H. R. 3789

To direct the Secretary of Health and Human Services, acting through the Director of the Centers for Disease Control and Prevention, and in consultation with the Secretary of Education and the President's Council on Fitness, Sports, and Nutrition, to conduct a study on the causes of deaths related to high school football and formulate recommendations to prevent such deaths.

---

## IN THE HOUSE OF REPRESENTATIVES

SEPTEMBER 14, 2017

Mr. RICHMOND (for himself, Ms. DELBENE, Mr. GARAMENDI, Mr. CÁRDENAS, Mr. ABRAHAM, Mr. YODER, Ms. SHEA-PORTER, Mr. TAKANO, Mrs. WATSON COLEMAN, Mr. COHEN, Mr. RODNEY DAVIS of Illinois, Mr. SERRANO, and Mr. HASTINGS) introduced the following bill; which was referred to the Committee on Energy and Commerce, and in addition to the Committee on Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

---

## A BILL

To direct the Secretary of Health and Human Services, acting through the Director of the Centers for Disease Control and Prevention, and in consultation with the Secretary of Education and the President's Council on Fitness, Sports, and Nutrition, to conduct a study on the causes of deaths related to high school football and formulate recommendations to prevent such deaths.

1       *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “High School Football  
5 Safety Study Act”.

6 **SEC. 2. FINDINGS.**

7       The Congress finds as follows:

8              (1) As of August 14, 2017, two high school  
9 football players—Kamari McGowan and Joshua  
10 Mileto—have passed away during the 2017 calendar  
11 year during football practice from causes directly or  
12 indirectly related to football.

13              (2) According to the National Center for Cata-  
14 strophic Sports Injury Research, 1,222 high school  
15 and middle school football players have passed away  
16 between 1931 and 2016 from causes directly or indi-  
17 rectly related to football.

18              (3) Over the past several years, the negative  
19 health effects of repeated head trauma have become  
20 clearer.

21              (4) Protecting the Nation’s children is one of  
22 the most important responsibilities of parents and  
23 Members of Congress.

1     **SEC. 3. STUDYING HIGH SCHOOL FOOTBALL DEATHS AND**  
2                 **DEVELOPING RECOMMENDATIONS TO PRE-**  
3                 **VENT FUTURE TRAGEDIES.**

4         (a) **IN GENERAL.**—The Secretary of Health and  
5     Human Services (in this section referred to as the “Sec-  
6     retary”), acting through the Director of the Centers for  
7     Disease Control and Prevention, and in consultation with  
8     the Secretary of Education and the President’s Council  
9     on Fitness, Sports, and Nutrition, shall conduct a study—

10                 (1) to more precisely identify the causes of  
11     deaths related to high school football; and

12                 (2) to develop recommendations to prevent such  
13     deaths in the future.

14         (b) **SOLICITING INPUT.**—In carrying out subsection  
15     (a), the Secretary shall seek input from nongovernmental  
16     entities, including organizations representing football  
17     coaches, athletic trainers, parents, and health care profes-  
18     sionals.

19         (c) **REPORT.**—Not later than 1 year after the date  
20     of enactment of this Act, the Secretary shall submit to  
21     the Congress and publish on the public Website of the  
22     Agency for Healthcare Research and Quality a report on  
23     the results of the study under subsection (a).

24         (d) **CONTENTS.**—The report under subsection (a)  
25     shall include—

1                             (1) a comprehensive review of research con-  
2                             ducted on deaths in high school football;  
3                             (2) an evaluation of causes of deaths related to  
4                             high school football; and  
5                             (3) recommendations on actions that can be  
6                             taken by schools, coaches, trainers, and govern-  
7                             mental entities to prevent high school deaths from  
8                             occurring in the future, including—  
9                                 (A) measures to prevent life-threatening  
10                             injury from occurring;  
11                                 (B) medical treatment protocols to treat  
12                             these injuries when they occur; and  
13                                 (C) ways in which technology and data  
14                             analytics can be used to prevent serious injury  
15                             and death.
